recommend them to any who are unfortunate enough to need artificial limbs.

Very resp't, your obed't serv't.

JOHN KIRKER,

WHERLING, W. VA., April 27th, 1865.

I have carefully examined the Artificial Legs of LEONARD LEGRAN, and find them simple in their construction, of good work. They will be quite as serviceablishing made. They will be quite as serviceablishing to make the part of the serviceablishing will be quite as serviceablishing. A. A. Surgeon, U. S. A. Surgeon, U. S. A. Heneov, Pleasarts Country, W. Va. September 12, 1885.

Mr. Charles Behler, Wheeling, W. Va. Dear Sir.—I have now been using the two half legs of the Legran make, furnished by you, for over two months and it affords me great pleasure in saying that they have been a great satisfaction to me in that time. The limb is simple in construction, strong, and is very comfortable; in fact I find it just the winds in the sample in construction, strong, and is very comfortable; in fact I find it just the so unfortunate as to have loss both their limbs as I have, but If any such should be found, to our fortune it is to be deprived or a hundred contraction, the sample ty, and general adaptation to the uses for which it is intended.

Very truly your, dec.,

THE SYMPTOMS OF CATARRH AS I they generally appear are at first very slight. Persons find they have a cold, that they have frequent attacks, and are more sensitive to the changes of temperature. In this condition, the nose may be dry, or a slight discharges, thin and acrid, afterwards becoming thick and adhesive, As the disease becomes chronic, the discharges are increased in quantity and changed in quality; they are now thick and heavy, and are hawked or coughed off. The secretions are offensive, cutsing a had breath; the voice is thick and nasal, the eyes thick and changed in quality; they are now thick and besvy, and as hawked or coughed off. The secretions are offensive, cutsing a bad pressit; by voice is thick and nasal, the eyes are weak; the sense of the smell is lessened or destroyed; destroses frequently takes place. Another common and important symiom of Catarra is that the person is obliged to clear his throat in the morning for a thick or slimy mucas, which has fallen down from the head during the hight. When this takes place the person may be sure that his disease is on its way to the image, and should lose no time in resting it.

New York, Oct. 21.—The Herald's correspondent from Brownsyille/Texas, and New Orleans, furnishes news of interest from the Rio Grande border.

Considerable of a sensation and quite a little dissatisfaction had been caused in military circles, by the recent order of Lieux, Gen. Grant, directing the mustering out of a large number of the veteran troops. By this order the 25th corps, under Gen. Weitzel, and il regiments of volunteer colored, from the states of New York, Massachusetts and Connecticut, have been relieved.

On the Mexican side of the Rio Grande an agitated and confused state of matters prevail. Cortinas and other Republican leaders, were still hovering with their bands in the vicinity of Matamoras, and skirmishes between them and the Imperialists, were still occurring, though not as frequently as some time ago, some of the Liberal chiefs in that region remaining in a comparatively quiet state, awaiting the result of ten. Carroja's mission to the United States, which they are confident will result in furnishing them all the men, money and material necessary, to rid their country of Maximilian within the next 18 months. The Herald's Panama correspondent says the prospect is that the republic of Chili will be compelled to submit to the demands of Spain for indemnity for alleged damages suffered by the Spanish fleet in the Pacific during the Peravian troubles, in consequence of being refused coal and other supplies in Chilian ports. Admiral Pinson, who commanded this fleet, has had conferred on him by his government the additional rank of Minister, and been endowed with power to insist on the indemnity demands. He has also at his command the facilities for enforcing them. Though there is great indignation among the Chilian people upon the subject, it is believed that the government will finally succumb.
